

IT'S JUST CRICKET U16's / U18's

With a coaching program delivered across the world from UAE, India and the USA, IJC will ensure your child is in a safe and challenging environment which tests their knowledge and ability as they develop into more mature cricketers.

Participants will learn the value of leading a healthy balanced life and social skills through team participation. Our U16/18's players (Team Thunder) will experience challenging sessions, which will include games and scenarios in various formats, developing their skill of reading the game and thinking for themselves. Players will understand "their game" and how to adapt in different scenarios according to their strengths, technique and to the teams needs. Coaches will work with the players to ensure personal development is achieved through not only skill based coaching but also strength and fitness as this often differentiates players and teams. Players will undergo intense training and testing in a fun and educational environment. **Players will fully embrace the CRICKETERS WAY along with how to train and develop. They will also set an example for future cricketers and act as mentors to junior players.** All activities will be specific to their age and physical ability.

The program is delivered at one of Dubai's most pristine grounds. With Grass and artificial pitches at our disposal along with our elite qualified coaches, you will not be disappointed.

IJC gives you an opportunity to train with some of the best coaches in the region with a wealth of experience coaching junior cricketers. IJC coaches are keen to push you to the next level and guide you through the skills as efficiently as possible.
